

Diploma Engineering College

A Report

on

“GIRNAR SWACHATA ABHIYAN”

Organised By

DEPARTMENT OF MECHANICAL ENGINEERING

OM Institute of Engineering & Technology, Junagadh

(6th Semester Diploma students dated on 21st JANUARY, 2017)

CO-ORDINATOR
PROF. P.M.PARMAR

VISITED FACULTIES
PROF. M.M.GHODASARA

Older than the Himalayas Girnar, the mountain and its range are considered sacred. It is an important pilgrimage site for both Jains and Hindus, who gather here during the Girnar Parikrama festival. Girnar is significant among Shiva devotees for the mystic space-time of the mountain range with the known presence and turnover of different sects of Sadhu Baba's, different Jain Tirthankars to Girnar, its typical flora and fauna, and the Maha Shivratri fair. Girnar hosts a number of temples and some historical spots across its range. Amidst the lush green Gir Forest, the mountain range serves as the hub of religious activity in form of girnar parikrama organised in month of December in which 10 lacks people are visited and roaming in Girnar for 3 to 5 Days. During their stay in forest range people are always throw their used items or things specially plastics in forest which is very harmful for the animals which lives on Girnar Forest.

Honourable Prime Minister of India gave a call for “Swachh Bharat” as a mass movement to realize Mahatma Gandhi’s dream of a Clean India. Under the “Swachh Bharat Abhiyan” Om Engineering College has taken an initiative to start this noble thought from our near by areas. So from Department of Mechanical Engineering students of 6th semester with their 2 Faculty members participated in Girnar Swachh Abhiyan on the 21 January, 2017. This activity is jointly organised with Forest Department with their planned schedule. Students and their team had started this activity from early morning. They got together at Girnar taleti at very first Base camp location and then transferred to the forest range in forest department vehical.

All students visited every corners of the Girnar including various Parikrama routes and the surrounding area of Girnar Parikrama route. Parikrama, which passes through the Girnar Sanctuary . The route begins from Bhavnath Taleti in Junagadh and devotees pass through Jinabava Madhi, Sarkadiya, Malvav and Bordevi and returning to the starting point which covers almost 30 to 32 KM. In this kind effort Forest Department had arranged food packets for all the students and drinking water faculty. In this noble activity Students learned the very important social message that we have to kept places clean weather its used by human or animal which really fullfill the motto of “Swach Bharat Abhiyan”. Young student youth of India is our future and this kind of social activity is very useful to all the students to develop his or her self socially. Forest Officer are happy and satisfied with effort of Student of Om Engineering College and conclude that in future they always involve student of Om Engineering College to perform this kind of social activities.
