

**OM ENGINEERING
COLLEGE**

Report

On

“TENDERING & VALUATION”

Date & Venue:

**29 February 2016.
OM Engineering College,
Junagadh**

**Coordinator
Prof. H.M.Bhimjiani**

**Conduct by
Prof. H.H. Gajera**

**H.O.D.
Prof. H.H.GAJERA**

**Prepared By
Prof. J.S.MAKADIYA**

ACKNOWLEDGEMENT

We are gladly thankful to Director as well as Principal **Dr. C.N.Jasani & Dr. Jaganaphan Ranalingam** & Head of the Department **Prof. H.H.Gajera(CIVIL)** and for providing such great opportunities to learn something new and innovative.

We are heartily thankful to **Mr.J.J.Kadivar** for sharing his valuable knowledge about Tendering & Valuation which is very useful to degree & diploma student of civil engineering relating to subject of “**Proffasional Practice & Valuation**” and also important for field work .

We are also thankful to H.H.GAJERA & H.M.BHIMAJIANI who made this seminar successful by showing their curiosity regarding “Tendering & Estimation”.

Prof. J.S.Makadiya

INTRODUCTION

Om engineering college, department of civil engineering had organized the one day expert talk for "Tendering & Valuation" by expert **Mr.J.J.Kadivar**, Has more than 25 years experience in the **Road & Building department of government of gujrat**.

Prof. H. H. Gajera, the Head Of Department of Civil Engineering guided the students about the basic knowledge of estimation & importance of valuation ; that are helpful to student in making carrier as PROFESSIONAL VALUER.

Prof.Kadivar, the expert has conducted the one day sessions and gave the guidance to students about importance of estimation, contract & precedure to fill the tender.

WELCOME SESSION

At starting of seminar, Prof.. B.R.ramani welcome our expert Prof. Kadivar,& introduce the talk person. Then Prof.B.R.Ramani gave basic knowledge to student about how to estimate the quantity & cost of any structure or building, & also comunicate the importance of tendering in the market at current scenario and also explained the requirement of civil engineers in upcoming years.They also explain difference between book knowledge & field knowledge.

INFORMATION ON ESTIMATION & TENDERING

Mr.J.J.Kadivar who give a brief introduction about important and Benifits of Tendering & Valuation for civil engineer.

The purpose of estimating is to forecast the cost & quantity of a project prior to its actual construction. Cost estimating is a method of approximating the probable cost of a project before its construction. The exact cost of a project is known after completion of the project. Cost estimate is prepared at various stages during the life of a project on the basis of the information available during the time of preparation of the estimate.

In Civil Engineering works the tendering procedure starts with the invitation in which the contract manager of the client through its team or consultant make a bill of quantities and invite from various different contracts to make a bid and then contract manager will evaluate the bids and then select the most appropriate one.

He also give brief about the below mention three main stages of Tendering procedure

1. Invitation to Tender
2. Opening of Tenders
3. Final Award of Contract

CONCLUSION

After attending this expert talk, student heartly thankful to Mr. J.J.Kadivar sir. They got knowledge about field for valuation, estimation & tendering which is helpful ater completion of their graduation and they know how work is excute in goverment sector.

Thank You

Department of
Civil Engineering
